

Table of Contents

| | |
|--|-----------|
| Chapter 1. Ethical and Legal Issues | 1 |
| Ethics | 1 |
| Regulation of Nursing Practice | 8 |
| Legal Aspects | 10 |
| Chapter 2. Theory | 15 |
| Nursing and Health | 15 |
| Human Behavior | 16 |
| Community-level Behavior Change | 20 |
| Organizational Change | 20 |
| Family Dynamics | 22 |
| Crisis Theory | 23 |
| Chapter 3. Leadership | 25 |
| Leadership | 25 |
| Team Building | 26 |
| Case Management | 28 |
| Total Quality Management | 31 |
| Continuous Quality Improvement | 32 |
| Outcome Evaluation | 34 |
| Chapter 4. Research | 37 |
| Problem Identification | 37 |
| Qualitative Methods | 39 |
| Quantitative Methods | 42 |
| Evidence-based Practice | 50 |
| Outcomes Evaluation | 51 |
| Chapter 5. Education and Counseling | 53 |
| Adult Learning | 53 |
| Patient Education Process | 57 |
| Patient Education and Counseling | 62 |
| Health Self-management | 64 |
| Discharge Planning | 65 |

| | |
|---|-------------|
| Chapter 6. Community Health | .69 |
| Community Health Practice | .69 |
| Components of Community Health Practice | .71 |
| Community Health Nursing | .73 |
| Healthy People 2010 | .75 |
| Community Initiatives | .77 |
| | |
| Chapter 7. Cardiac and Vascular Risk | .79 |
| Coronary Heart Disease (CHD) | .79 |
| Stroke | .86 |
| Peripheral Vascular Disease | .93 |
| | |
| Chapter 8. Risk Reduction | .97 |
| Levels of Prevention | .97 |
| CVD Prevention | .98 |
| Exercise and Activity | .99 |
| Nutrition | .102 |
| Tobacco Use and Exposure | .105 |
| Cardiac Rehabilitation | .106 |
| | |
| Chapter 9. Hypertension Management | .109 |
| Normal Blood Pressure | .109 |
| Regulation of BP | .109 |
| Hypertension | .112 |
| Clinical Assessment | .117 |
| Management of HTN | .119 |
| | |
| Chapter 10. Dyslipidemia Management | .127 |
| Metabolic Syndrome | .127 |
| Screening for Atherosclerosis Risk | .127 |
| ATP III Guidelines | .128 |
| Implications for Nursing Practice | .130 |
| Treatment of Dyslipidemia | .130 |
| | |
| Chapter 11. Pathophysiologic Processes | .133 |
| Pathophysiologic Stimuli | .133 |
| Cellular Structure and Function | .134 |
| Cellular Injury and Death | .140 |
| Vascular Structure and Function | .140 |
| Vascular Cells Response to Injury | .142 |
| Hypoxia and Ischemia | .142 |
| Inflammation | .144 |
| Atherosclerosis | .146 |

Thrombosis and Embolism148
 Altered Vascular Function149
 Cardiac Structure and Function154
 Altered Cardiac Function155

Chapter 12. Cardiac and Vascular Assessment161

Basic Principles161
 Subjective Information (History)162
 Physical Examination167
 Diagnostic Tests184
 Laboratory Tests Using Blood185
 Non-invasive Diagnostic Testing189
 Diagnostic Ultrasonography194
 Diagnostic Testing Using Radionuclides196
 Invasive Diagnostic Testing196

Chapter 13. Cardiac and Vascular Disease Manifestations .199

Angina Pectoris199
 Myocardial Infarction201
 Mitral Stenosis206
 Mitral Regurgitation208
 Aortic Stenosis210
 Aortic Regurgitation212
 Acute Pericarditis214
 Dilated Congestive Cardiomyopathy215
 Hypertrophic Cardiomyopathy219
 Restrictive Cardiomyopathy224
 Heart Failure227
 Atrial Fibrillation232
 Atrial Flutter235
 First Degree Atrio-Ventricular Block238
 Second Degree Atrio-Ventricular Block, Type I240
 Second Degree Atrio Ventricular Block, Type II242
 Third Degree Atrio-Ventricular Block244
 Ventricular Tachycardia246
 Ventricular Fibrillation249
 Sudden Cardiac Death251
 Pulmonary Hypertension253
 Carotid Artery Occlusive Disease255
 Abdominal Aortic Aneurysm257
 Upper Extremity Arterial Occlusive Disease259
 Lower Extremity AOD262
 Deep Vein Thrombosis265
 Chronic Venous Insufficiency266

|--|------------|
| Chapter 14. Invasive Management of Cardiac and Vascular Disease | 269 |
| Percutaneous Transluminal Coronary Angioplasty | 269 |
| Stent | 272 |
| Coronary Atherectomy | 274 |
| Percutaneous Transluminal Angioplasty of the Lower Extremity | 276 |
| Percutaneous Transluminal Angioplasty of the Carotid Artery | 278 |
| Percutaneous Transluminal Angioplasty of the Renal Artery | 280 |
| Percutaneous Balloon Valvuloplasty | 282 |
| Pacemakers | 284 |
| Implantable Cardioverter Defibrillator | 291 |
| Coronary Artery Bypass Surgery | 293 |
| Valvular Repair and Valvular Replacement | 298 |
| Arterial Bypass Surgery | 301 |
| Aneurysm Repair | 305 |
| Carotid Endarterectomy | 307 |
| Peripheral Thromboembolectomy | 310 |
| Overview of Cardiac Transplantation | 312 |
| | |
| Chapter 15. Cardiovascular Pharmacology | 315 |
| Adrenergic Group | 315 |
| Inotropic Agents | 322 |
| Anti-dysrhythmics | 324 |
| Vasodilators | 327 |
| Calcium Channel Blockers | 330 |
| Anticoagulant, Anti-Thrombotic (Anti-Platelet), and Thrombolytic (Fibrinolytic) Drugs | 332 |
| Drugs Influencing the Renin-Angiotensin System | 336 |
| Diuretics | 338 |
| Antihyperlipidemics | 340 |
| Hormone Replacement Therapy and CHD | 345 |
| | |
| Chapter 16. Special Situations | 347 |
| Emergency Conditions | 347 |
| Race, Ethnic, Gender, and Cultural Considerations | 355 |
| Co-morbid or Concomitant Conditions | 358 |
| Specific Nursing Interventions | 359 |

| | |
|--|-------------|
| Chapter 17. Psychosocial Aspects | .361 |
| Coping and Adaptation | .361 |
| Quality of Life | .365 |
| Appendix A: Bibliography | .371 |
| Appendix B: Review Questions | .383 |
| Appendix C: Review Question Answers | .393 |
| Index | .399 |
